

Mobi Matting

Features and Benefits

- **Environmentally friendly** - Made from 100% recycled materials that provide a firm, safe, cool and stable surface for all users. Lab tested and long lasting.
- **User friendly** - Cool and smooth surface The blue AFX Mobi-Mat® RecPath™ permeable structure remains cool when exposed to very high temperature up to 80°C (176°F), for the benefit of all users with a disability and also any barefoot beachgoers.
- **Sturdy** - improve access on the beach to support users with mobility challenges who generally cannot get on the beach or who struggle to move across sand safely. Can accommodate a wide range of users including; people with mobility and visual impairments, the elderly, those using wheelchairs, mobility scooters or strollers and other groups with special needs access.
- **Color** - Blue Jay easily provides dedicated traffic lanes and is great for visually impaired persons.
- **Self maintaining design**, remains on top of the sand at all times. Comes with 'staples' to secure at each end and part way down the sides.
- **Low Maintenance**: The Mobi-Mat® permeable structure allows sand to filter through, without sinking into the sand. Mobi-Mat® RecPath™ is easily maintained by sweeping any excess sand build up with a broom or with a leaf blower.
- **Use** - Can be installed as permanent or temporary pathway.
- **Life Expectancy** - Super thin, highly engineered design with a life expectancy of 10+ years.
- **Availability** - available in 1.5m x 10m lengths that can be easily connected together for ultimate configurability.
