View the complete range of Active Hands Gripping Aids on www.c1south.co.nz

Active Hands are an award winning design that allow those who are limited by weak grip or poor hand function to participate in a wide range of activities in the home, gym and while out and about. When tightening the gripping aids, gently pull the hand into a fist shape and can be adjusted to hold items in the palm. Exercise aids attach or slip over the handles and components of exercise equipment.

AH9 Small Item Gripping Aid

The Small Item Gripping Aid is a new and exciting gripping aid from Active Hands. This allows you to hold small diameter items such as make-up, other personal care items, art and office products. A two-part system, consisting of a neoprene glove and a velcro-on palm pad, allows you to swap between palm pads quickly (Comes with 2 Palm Pads). Left & Right.

Mini - 110mm - 135mm wrist circumference

Small - 135mm - 160mm wrist circumference

Standard/Large - 160mm - 210mm wrist circumference

Left or right hand sold separately.

AH10 Hook Aids

The Hook Aids are designed to enable you to grip and release equipment mostly in the gym or as part of exercise activity. This pair of Hook Aids have been designed to be used on machines with bar type handles and some types of handlebars on bikes or hand bikes. They are great for situations where the Looped and D Ring Aids cannot be used, for example closed ended bars.

Available in Standard or Large sizing and come in pairs.

Standard - 130mm - 180mm wrist circumference

Large - 175mm - 260 wrist circumference

Sold in Pairs
